

A day on a Dutch farm is guaranteed to give you a combination of hospitality and relaxation.

You will be surprised what kind of activities you can do around the farm.

What is Cow Hugging ?

Cow Hugging, which is famous around the world, can only be done in Holland. It's not easy to explain; you have to experience it to understand why it's special. You can even experience how relaxing it can be to do a bit of cow cuddling and enjoy a Dutch picnic on the banks of Tjeukemeer Lake.

Milk Tour

The Milk route gives an insight into the process of milk production. The Milk factory processes the milk before one can find it is on the shelves in the supermarket. There is still a working dairy plant in 'Scharsterbrug' from ancient times that is still standing.

ITINERARY

Reception with coffee/tea and Frisian Orange cake

Dress up in peasant clothing and take a group photo
